

Durable and hygienic crates ...  
 ... that make your products stand out in the shop.

# CC Freshbox

## The returnable plastic crate

### Created to keep your products fresh

CC Freshbox is a reusable plastic crate for both food and non-food products. It comes in six different sizes that are made from the robust material, High Density Polyethylene, which is both cadmium-free and recyclable. To make sure that your products stay fresh and clean, we've made this crate easy to wash and dry, with a smooth surface and no unreachable areas. The many ventilation holes make drying easier and facilitate cooling of the products in the crates.

### The perfect in-store crate

The rounded corners on the CC Freshbox make it easy to position and safe to use. The discreet construction makes it a great in-store display, and the neutral colour of anthracite grey is chosen specifically to ensure that your products will be the eye-catchers – not the CC Freshbox. The CC Freshbox has label holders on all sides and a specific space for stickers.

### Specifications

Making your products move

## CC Freshbox

### The returnable plastic crate

#### What you get with the CC Freshbox:

- 1 A reusable plastic crate** developed for the transportation of both food and non-food products.
- 2 Easy to both clean and dry**, with a smooth surface and a simple design that makes it possible to reach any part of the crate.
- 3 Ensures maximum product protection** that can be further enhanced with a lid.
- 4 The perfect in-store crate.** The neutral colour of anthracite grey is chosen specifically to ensure that your products are the eye-catchers – not the crates.
- 5 Label holders on all sides and a place for stickers.**
- 6 Recyclable and cadmium-free.** Made from High Density Polyethylene.
- 7 Safe to use.** The rounded corners make it easy to position and safe to use.
- 8 Can endure dramatic changes in temperatures.** It can be used or stored from  $-40^{\circ}$  to  $+60^{\circ}$ . The shape and dimensions of the CC Freshbox will remain unchanged.
- 9 Can be stacked with most plastic crates in the market**, as it meets European standard dimensions.
- 10 Can be transported on the following: CC Rolly, CC Rollcontainer, CC Dolly, CC Euro Dolly** or standard Euro Pallets.
